

## **Metal Worker and Maker**

Cake Industries design, engineer, fabricate and make beautiful things; from sculpture and staircases to cabinetry and pavilions. Working with the finest materials and taking a design-focused approach to all projects, we work with architects, designers, artists and contractors to bring concepts to life.

We are currently looking for an experienced Metal Worker and Maker to join our team.

### *Role*

- You will have specialist knowledge and practical fabrication experience with a range of materials and processes with an emphasis on steel, brass and aluminium.
- You will carry out fabrication on a range of projects both in the workshop and on site.
- You will uphold high standards of craft and workmanship, demonstrating awareness of quality management across varying projects and contexts from structural fabrication to detailed metalworking.
- You will carry out high quality fabrication and finishing on a range of complex and interesting projects.
- You will have a positive attitude and enjoy problem solving within a creative and collaborative environment.
- You will ensure that that your own work is carried out efficiently
- You will maintain high standards of health and safety in your work both in our workshop and on-site.
- You will act as a mentor to junior and apprentice metalworkers and makers.
- You will report to the workshop manager and the Directors.

### *Salary*

Competitive, based on experience and competence.

### *Job Type*

Permanent, 5 days a week. A salaried package including annual leave and statutory benefits.

### *Essential skills*

- Minimum of five years' experience in a relevant environment
- Knowledge of fabrication and making in a wide range of materials.
- Welding (MIG, TIG, braising) and weld preparation skills
- Metal forming and cutting
- Finishing and patination skills in steel, brass, and aluminium.
- Knowledge of leading an effective small team
- Excellent communication skills

- Ability to read and understand engineering drawings
- Knowledge of and implementation of good health and safety practice
- Exemplary time management and an organised and coherent approach to your work

*Desirable skills*

- Appropriate certification for welding skills and experience with coded welding
- Experience of working both in a workshop and on site installation.
- Machining or lathe skills
- CSCS Card and/or formal health and safety training
- Valid UK driving licence

Please submit your CV and examples of previous work including contact details for two references to [info@cakeindustries.com](mailto:info@cakeindustries.com).

Applicants will be selected subject to an interview and skills trial over a working day (unpaid).
