

Junior Metal Worker and Maker

Cake Industries design, engineer, fabricate and make beautiful things; from sculpture and staircases to cabinetry and pavilions. Working with the finest materials and taking a design-focused approach to all projects, we work with architects, designers, artists and contractors to bring concepts to life.

We are currently looking for a junior Metal Worker and Maker to join our team.

Role

- You will have practical fabrication experience with a range of materials and processes with an emphasis on steel, brass and aluminium.
- You will carry out fabrication on a range of projects both in the workshop and on site.
- You will uphold high standards of craft and workmanship, demonstrating awareness of quality management across varying projects and contexts from structural fabrication to detailed metalworking.
- You will carry out high quality fabrication and finishing on a range of complex and interesting projects.
- You will have a positive attitude and enjoy problem solving within a creative and collaborative environment.
- You will ensure that that your own work is carried out efficiently
- You will maintain high standards of health and safety in your work both in our workshop and on-site.
- You will report to the workshop manager and the Directors.

Salary

Based on experience and competence but expected to be in the range £27,000 to £30,000.

Job Type

Permanent, 5 days a week. A salaried package including annual leave and statutory benefits.

Essential skills

- Minimum of one years' experience in a relevant environment
- Knowledge of fabrication and making in a wide range of materials.
- Metal forming and cutting
- Excellent communication skills
- Ability to read and understand engineering drawings
- Knowledge of and implementation of good health and safety practice
- Exemplary time management and an organised and coherent approach to your work

Desirable skills (not all of these will be required).

- Welding (MIG, TIG, braising) and weld preparation skills
- Finishing and patination skills in steel, brass, and aluminium.
- Appropriate certification for welding skills and experience with coded welding
- Experience of working both in a workshop and on site installation.
- Machining or lathe skills
- CSCS Card and/or formal health and safety training
- Valid UK driving licence

Please submit your CV and examples of previous work including contact details for two references to info@cakeindustries.co.uk.

Applicants will be selected subject to an interview and skills trial over a working day (unpaid).
